Part Notes:

- [1] - 36-43
 [2] - SC800-71

[3] - SC800-86

NOTE 1: On machines before April 2015, the machines design allowed the Motor Gearbox Assy to interfere with the Recovery Tank causing blown/shorted fuses

and broken electrical stud connections.

NOTE 2: On machines after March 2015, Brush Plate Weldt 34D 56112759 was modified by rotating the Motor Gearbox Assy mounting holes 25 degrees to

allow for a non-interfering motor positioning.

| [30] | - | for 56115344 |

We provide brushes and pad holders that will give you the best possible performance between machine and floor. Following are descriptions of the materials and their applications.

- ProLite:** Bristles are made from light-duty polypropylene for general scrubbing when you do not want to scratch or remove finish from the floor. Recommended for use in place of red pads.
- Prolene:** Polypropylene material for medium-duty scrubbing on concrete, terrazzo and vinyl floor tile. Recommended for use in place of green or blue pads.
- Union Mix:** Medium grade natural fibers for polishing finished floors with standard-speed equipment. Recommended for use in place of white pads.
- AgLite Grit 500:** For light scrubbing when used wet; buffing or polishing when used dry on urethane coated, sealed concrete or other resilient hard surface floors. Recommended for use in place of red or white pads.
- MidGrit 240:** For general purpose scrubbing when you need a lighter action for sealed or unsealed concrete, stone, terrazzo, quarry tile and other resilient hard floor surfaces. Recommended for use in place of green or blue pads.
- MidLite Grit 180:** For general purpose scrubbing of sealed or unsealed concrete, stone, terrazzo, quarry tile and other resilient hard floor surfaces. Recommended for use in place of green or blue pads.
- Dyna Grit 80:** For aggressive, heavy-duty scrubbing or stripping of floors. Recommended for use in place of brown pads.
- Magna Grit 46:** For extreme heavy-duty scrubbing or stripping of floors. This brush has extra large diameter silicon carbide grit impregnated synthetic bristles. Recommended for use in place of black pads.
- Short Trim**
- Pad Holder:** Made with a structural foam block and center ring for correct pad centering. It has a "shower feed" design for getting solution to the floor.

Part Notes:

[1] - FOR 56505800

We provide brushes and pad holders that will give you the best possible performance between machine and floor. Following are descriptions of the materials and their applications.

- Soft Nylon:** Least aggressive brush available. Used on soft-finish floors where a more aggressive brush would leave scratch marks, or in applications requiring very light cleaning.
- Stiff Nylon:** Cleaning action similar to polypropylene. More durable and wear-resistant than polypropylene.
- Prolene:** Low cost, yet effective in cleaning many common floor surfaces.
- MidLite Grit 180:** Least aggressive grit brush. Used for daily cleaning of hard-finished floors.
- Dyna Grit 80:** Medium aggressive grit brush. Good all-around brush for medium to heavy buildup removal. Can also be used for general stripping operations.
- Magna Grit 46:** Most aggressive grit brush. Used primarily to clean heavy buildup on concrete floors in factories, or for heavy stripping of finish.

BA 756 BRUSHES
