[12] - (BR 1050SC)

Squeegee Blade Kits include both front rear squeegee blades.

-
- [13] - (BR 850S)
 Squeegee Blade Kits include both front rear squeegee blades.
 - [14] - (BR 1050S Models before July 2012)
 - [15] - (BR 850S Models before May 2012)
 - [16] - Squeegee Blade Kits include both front rear squeegee blades.
 - [17] - (BR850S)
 Squeegee Blade Kits include both front rear squeegee blades.
 - [18] - (BR850SC)
 Squeegee Blade Kits include both front rear squeegee blades.
 - [19] - (BR1050S)
 Squeegee Blade Kits include both front rear squeegee blades.
 - [20] - (BR1050SC)
 Squeegee Blade Kits include both front rear squeegee blades.

Resource notes:

NOTE 1: These squeegee assemblies include gum rubber blades. NOTE 2: These squeegee assemblies include red gum rubber blades. NOTE 3: These parts were implemented in production as of November 2011 to increase squeegee down pressure. Order Squeegee Spring Kit 56382634 to upgrade your machine to include this improvement. NOTE 4: This squeegee assembly includes a red gum rubber front blade and a gum rubber rear blade.

Part Notes:

[1] - FOR 56505750

We provide brushes and pad holders that will give you the best possible performance between machine and floor. Following are descriptions of the materials and their applications.

ProLite:	Bristles are made from light-duty polypropylene for general scrubbing when you do not want to scratch or remove finish from the floor. Recommended for use in place of red pads.
Prolene:	Polypropylene material for medium-duty scrubbing on concrete, terrazzo and vinyl floor tile. Recommended for use in place of green or blue pads.
Union Mix:	Medium grade natural fibers for polishing finished floors with standard-speed equipment. Recommended for use in place of white pads.
AgLite Grit 500:	For light scrubbing when used wet; buffing or polishing when used dry on urethane coated, sealed concrete or other resilient hard surface floors. Recommended for use in place of red or white pads.
MidGrit 240:	For general purpose scrubbing when you need a lighter action for sealed or unsealed concrete, stone, terrazzo, quarry tile and other resilient hard floor surfaces. Recommended for use in place of green or blue pads.
MidLite Grit 180:	For general purpose scrubbing of sealed or unsealed concrete, stone, terrazzo, quarry tile and other resilient hard floor surfaces. Recommended for use in place of green or blue pads.
Dyna Grit 80:	For aggressive, heavy-duty scrubbing or stripping of floors. Recommended for use in place of brown pads.
Magna Grit 46:	For extreme heavy-duty scrubbing or stripping of floors. This brush has extra large diameter silicon carbide grit impregnated synthetic bristles. Recommended for use in place of black pads.
Short Trim	
Pad Holder:	Made with a structural foam block and center ring for correct pad centering. It has a "shower feed" design for getting solution to the floor.

We provide brushes and pad holders that will give you the best possible performance between machine and floor. Following are descriptions of the materials and their applications.

- Soft Nylon:** Least aggressive brush available. Used on soft-finish floors where a more aggressive brush would leave scratch marks, or in applications requiring very light cleaning.
- Stiff Nylon:** Cleaning action similar to polypropylene. More durable and wear-resistant than polypropylene.
- Prolene:** Low cost, yet effective in cleaning many common floor surfaces.
- MidLite Grit 180:** Least aggressive grit brush. Used for daily cleaning of hard-finished floors.
- Dyna Grit 80:** Medium aggressive grit brush. Good all-around brush for medium to heavy buildup removal. Can also be used for general stripping operations.
- Magna Grit 46:** Most aggressive grit brush. Used primarily to clean heavy buildup on concrete floors in factories, or for heavy stripping of finish.
