CA 340

Clean floors in half the time.
Safe to use during business hours

- Automatic scrubber dryer

Choose between a nylon brush (in soft or medium stiffness) or an optional silicon carbide brush, depending on the job. You can individually adjust the brush pressure, so that any surface is cleaned effectively

With the twin-tank version of the CA 340, the job of filling, cleaning and emptying the tanks is extra quick and easy. You don't need a bucket — just leave the unit where it is and carry the tanks to the nearest toilet or sink

Twice as fast as mopping

The unique nozzle head of the CA 340 scrubber dryer allows you to clean under furniture, right up to the wall's edge

If you dislike cleaning floors, you'll love the Nilfisk CA 340. With just a light touch of the finger, this mini scrubber dryer glides into action, leaving your floors spotless. There's no slippery residue, no aching back. Just a clean, dry surface.

The Nilfisk CA 340 is ideal for the daily maintenance of any hard floor that can be wet cleaned. Cleaning contractors will appreciate the light weight and portability of the CA 340 (230V power) with a choice of twin tanks.

- Cleans up to 400m² an hour - twice as fast as mopping, and with far better results
- Leaves stone, tile, cement, marble, rubber, vinyl and sealed wood floors spotless
- Dries as it cleans, leaving a slip-free surface.
- Simple controls are easy to see and reach
- Unique design permits cleaning under furniture and right up to the wall's edge
- Manoeuvrable and compact
- Handle adjusts to the height of any user and folds away for easy storage
- Quiet operation
- Choice of 3 brushes, with individually adjustable pressure to ensure thorough cleaning - even on an uneven surface

Simple, clearly marked controls are within easy reach of the user. Convenient foot pedal raises and lowers brush. The adjustable handle adapts to fit any person

With a squeegee on both sides of the brush, you get equally effective drying when moving forward or backward, or turning

Reliability is also our mantra when it comes to service

A Nilfisk machine functions optimally when cared for by regular service and maintenance visits. Therefore we have created the optimal service solution: three levels of service reflecting different requirements and an optional supply of a substitute machine in critical situations.

Service Solutions Standard – Professional maintenance

Your contract encompasses two yearly maintenance visits and 48 hours response time. Breakdown visits and spare parts are billed separately.

Service Solutions Plus – Optimised performance

With the Plus solution you have a firm grip on your maintenance and repair costs while knowing that your performance is never compromised, only optimised.

Service Solutions Premium – Maximised uptime

If uptime is your absolute top priority and key concern, Service Solutions Premium is the best choice. A quarterly maintenance visit is included, and there are no sudden financial surprises.

If you're using a mop, you're probably spending about two hours to clean every 300 m² of floor, and having to wait until after business hours. With a CA 340 scrubber dryer, you can clean that same area — much better, and during business hours—in half the time or less. Because the CA 340 picks up all water in a single pass as you clean, there's no slipping hazard.

Technical specifications

Description	Unit	CA 340
Voltage	V	230
Rated power	W	1140
Sound pressure level at 1.5m	dB(A)	68
Productivity rate theoretical/ actual	m ² /h	1360/680
Scrubbing width	mm	340
Max speed	km/h	4
Solution/recovery tank	litre	11/12
Brush/pad diameter	mm	1 cyl. 100
Brush pressure	kg	16
Brush speed	rpm	1000
Length x width x height (w/o squeegee)	cm	62x40x48
Weight	kg	49
